<b>Preface</b> .....	<b>xi</b>
<b>Introduction</b> .....	<b>1</b>
<b>1. History — Early Days</b> .....	<b>3</b>
1.1 Early Ideas .....	3
1.2 The Introduction of Mechanised Welding .....	5
1.3 UT Adaptations to the Mechanised Welding .....	6
1.4 Probe Design Changes .....	8
1.5 Mechanised UT Enters the Computer Age .....	10
1.6 Standardising Concepts .....	16
References to Chapter 1 .....	17
<b>2. Zones—How to Keep Them Apart</b> .....	<b>19</b>
2.1 Principles of the Zonal Technique .....	20
2.2 Beam Control .....	22
2.2.1 Beam Spot Size .....	23
2.2.2 Beam Angle .....	30
References to Chapter 2 .....	48
<b>3. Beam Angles—Designing a Technique</b> .....	<b>49</b>
3.1 Defining Fusion Zones and Volumetric Zones .....	50
3.2 Volumetric Detection .....	66
3.3 Some Transverse Ideas .....	69
3.4 Adding TOFD .....	73
3.5 SMAW and SAW Needing Vertical Targets .....	74
References to Chapter 3 .....	77
<b>4. Calibration—How to Set Up the Targets</b> .....	<b>79</b>
4.1 Block Drawings and What the Machinist Needs to Know .....	80
4.2 Acoustic Quality Check .....	87
4.3 Surface Condition .....	89
References to Chapter 4 .....	96

<b>5. System Requirements—Equipment and Displays .....</b>	<b>97</b>
5.1 Scanner Head .....	98
5.2 Data Acquisition Units .....	101
5.3 Displays .....	108
5.4 Records .....	116
References to Chapter 5 .....	118
<b>6. Making a Good Calibration .....</b>	<b>119</b>
6.1 A Review of Targets .....	120
6.1.1 Zonal Targets .....	120
6.1.2 Volumetric Targets .....	123
6.1.3 Transverse and TOFD Notches .....	127
6.1.4 Various Calibration Aspects .....	127
6.2 Limitations on Calibration Quality .....	137
6.3 Characteristics of a Good Calibration .....	139
References to Chapter 6 .....	140
<b>7. Project Preparation and Pre-Project Planning .....</b>	<b>141</b>
References to Chapter 7 .....	148
<b>8. Qualification—Systems, Operators, and Techniques .....</b>	<b>149</b>
8.1 What Is Required and Is It Reasonable? .....	153
8.1.1 Testing at Elevated Temperature .....	153
8.1.2 Repeatability with Guide Band Movement .....	155
8.1.3 Accuracy in Circumferential Positioning/Location .....	156
8.1.4 Repeatability with Scanner Orientation (Upside Down) .....	157
8.1.5 Detection Level on an Unwelded Bevel .....	157
8.1.6 Coupling Check—Alarm Levels Verified (TR and PE) .....	158
8.1.7 Repeatability with Scan Direction .....	159
8.1.8 Clearance Test .....	161
8.1.9 Probability of Detection and Sizing .....	161
8.1.10 Accuracy in Height and Length Sizing .....	163
8.1.11 Other Equipment Tests .....	164
8.2 Operator Qualifications .....	165
8.3 In Summary .....	166
References to Chapter 8 .....	168
<b>9. Interpretation .....</b>	<b>169</b>
9.1 What Is Evaluated? .....	169
9.2 Evaluation Thresholds .....	173
9.3 Flaws .....	174
9.3.1 Misfire .....	175
9.3.2 Undercut .....	175
9.3.3 Shrinkage Cracks .....	176

9.3.4	Porosity .....	176
9.3.5	Cold Lap .....	177
9.4	Geometry .....	178
9.4.1	Root .....	179
9.4.2	Cap Geometry .....	182
9.5	False or Overtrace Signals. What are they? .....	184
9.6	Examples of AUT Indications .....	186
9.7	Flaws .....	187
9.7.1	Lack of Fusion Root .....	187
9.7.2	Lack of Fusion Midwall .....	188
9.7.3	Lack of Fusion Cap .....	189
9.7.4	Centreline Crack .....	190
9.7.5	Root Porosity .....	191
9.7.6	Fill Porosity .....	192
9.7.7	Burn Through .....	194
9.7.8	Geometry: High-Low .....	195
9.7.9	Cap Geometry .....	198
9.7.10	False Signals .....	199
9.8	Special Flaws .....	201
9.8.1	Transverse Cracks .....	201
9.8.2	Copper .....	202
9.8.3	General .....	202
9.9	What to Do with Volumetric and TOFD Data .....	203
9.10	Computer-Assisted Positioning .....	204
	References to Chapter 9 .....	206
<b>10.</b>	<b>Acceptance Criteria .....</b>	<b>207</b>
10.1	Workmanship .....	207
10.1.1	API 1104 .....	209
10.1.2	AS 2885.2 .....	210
10.1.3	CSA Z662 .....	212
10.1.4	ISO 13847 .....	213
10.1.5	DNV OS F101 .....	214
10.1.6	General Considerations in Workmanship Acceptance Criteria for AUT .....	217
10.2	ECA-Based Acceptance Criteria .....	218
10.2.1	The Principles of Engineering Critical Assessment .....	219
10.2.2	API and BS Rules .....	226
10.2.3	Generic Acceptance Criteria .....	228
	References to Chapter 10 .....	231
<b>11.</b>	<b>AUT Sizing and PODs .....</b>	<b>233</b>
11.1	Sizing “Techniques” .....	235
11.2	Amplitude Techniques .....	235

11.2.1 Simple Zone Sizing .....	235
11.2.2 Amplitude Corrected Zone Sizing .....	236
11.2.3 Amplitude Corrected Zone Sizing with Overtrace Allowance ..	237
11.2.4 Amplitude Comparisons with Zone Characterisation .....	238
11.2.5 Beam Boundary by dB Drop .....	240
11.3 Temporal Techniques .....	243
11.3.1 TOFD .....	244
11.3.2 Backscatter .....	245
11.4 Amplitude Sizing Comparison .....	246
11.5 POD and POS .....	249
11.6 Statistical Techniques .....	250
11.7 Precision and Accuracy .....	255
11.8 Summary .....	262
References to Chapter 11 .....	263
<b>12. Great Expectations and Mythologies .....</b>	<b>265</b>
12.1 Procedure Policies .....	265
12.2 Audit Guidelines .....	268
12.3 The Operator's Log .....	271
12.4 Wall Thickness Variation Effects .....	272
12.5 AUT Myths .....	274
References to Chapter 12 .....	284
<b>13. Applications .....</b>	<b>285</b>
13.1 Pipeline Land Lay .....	285
13.2 Offshore Projects .....	289
13.3 Offshore Spoolbase .....	292
13.4 Dual-Product Longitudinal Seam .....	294
13.5 Non-Pipeline Applications of the Zonal Technique .....	295
13.6 Future of AUT .....	296
13.7 Phased Arrays .....	297
13.7.1 Seamless Pipe .....	297
13.7.2 Inspections on Thick Section Risers .....	298
13.7.3 1.5D Arrays for Improved Sizing in Risers and Tendons .....	300
13.7.4 Focusing for Small Diameter Pipes .....	301
13.7.5 Short Cutback .....	302
13.7.6 Clad Pipe .....	303
13.7.7 Portable Phased Array Units .....	304
13.8 Conclusions .....	305
References to Chapter 13 .....	307
<b>Appendix A: Beam Size Tables .....</b>	<b>309</b>

<b>Appendix B: Beam Size Approximations from Calibration</b>	
Scans .....	313
<b>Appendix C: Suggested Techniques .....</b>	<b>317</b>
C.1 CRC Bevel .....	317
C.2 CRC Techniques .....	318
C.3 SMAW Single Vee Bevel of 60° (Manual Welding) .....	324
<b>Appendix D: Statistical Concepts .....</b>	<b>329</b>
D.1 Comparing Samples .....	335
D.2 The Significance of Significance .....	336
D.3 A Tail of a Curve .....	337
D.4 Probability .....	340
Bibliography of Appendix D: "Statistical Concepts" .....	342
<b>Glossary of Terms and Abbreviations .....</b>	<b>343</b>
<b>List of Figures .....</b>	<b>349</b>
<b>List of Tables .....</b>	<b>355</b>
<b>Index .....</b>	<b>357</b>
